## NEWS OF A DAY IN SCOTSDALE.

**Fairmont Brick Were Chosen  
for Spring Street on  
Last Night.**

**ARTHUR AVENUE PAVING LET.**

**Ordinance to Improve That Street Finally Passed and Bids Will Be Received Up Until November 6—Other News.**

SCOTSDALE Oct 22.—Town Council met in regular adjourned session last night and until after 10 o'clock had one of the liveliest meetings of its history, in which many questions of importance came up and fast work of the most interesting features of the meeting which was attended by every member was the hearing of the report of the Street Committee and Engineer which was instructed at a previous meeting to make a complete test of the brick upon which the Union town Construction Company bid to pave Spring street. The Boller Fairmont, Layton, Mack and Penna Clay Companies brick giving them in their alphabetical order were given the rattler test, which the engineering authorities, say comes nearest to the actual test of the brick in a street under the wear of traffic, the absorption test to determine the amount of moisture the brick will absorb and its consequent behavior in cold weather, and the crushing test to determine what pressure the brick will withstand. The tests were made locally and in the presence in each case of a number of citizens. J. Warren Brooks, one of the petitioners for paving Arthur avenue, weighed 35 of the brick on a scale set to grains before and after they were placed all together in the rattler and after they were dried for 48 hours and after they were immersed in water for 48 hours and Mr. Koej run the hydraulic press which tested with a registering gauge the amount of pressure that two samples of brick from each factory stood. H. M. Davis, one of the petitioners for improving Spring street, placed the brick on top of a pair of furnaces of the American Sheet & Tin Plate Company to allow them to dry by the heat of the furnace. The brick were put through the furnace rattler, and through the courtesy of the H. C. Frick Coke Company car shops they were given the hydraulic pressure test. One brick was retained from the beginning as an average sample. The test in detail was made in a typewritten report which was completed in the evening before Council met and a copy of which was handed to each member of Council for their information. The secretary read the test and these members checked it up as it was read. The result of the test showed that the Hammond Brick Company of Fairmont, W. Va., submitted the five samples that showed to be the best by each separate test. In amount of weight loss by the brick in the rattler showing the wear and tear there was a difference between the Fairmont, the best showing and the one showing the poorest, the 1.81 per cent most wear in the absorption test the Fairmont brick took 18 per cent of water and the lowest in order 5 per cent. In the crushing test the Fairmont broke with an average of 2175 tons pressure and the lowest 750 tons. A part of the Council was against accepting the report of the committee but it was accepted by a vote of 8 to 1. The Fairmont brick was then chosen by a vote of 7 to 5. They will cost 6 cents more a square yard than the ones showing lowest test, but cheaper than any of the other brick.

The ordinance for grading, paving and curbing Arthur avenue was passed finally by a unanimous vote of Council, and bids will be received up until 8 o'clock on the evening of November 6th, the earliest that advertising can consistently be done for. Brick or block will be used and contractors will be asked to bid on sandstone or concrete curbing. The Street Committee appointed B. H. Boyd as inspector on the street paving and their action was approved by a vote of 7 to 5, although there was much argument on the matter, some of the Council desiring that the Street Commissioners act as inspectors. The rate per day was set at \$3 the same as other paving inspectors have received this being passed by the same vote. The assistant Borough Engineer said that since the Engineer has charge of the paving that an inspector will have to be on from the borough, or the Borough Engineer will have to have one on for which the standard engineer's wages of \$5 per day will be charged.

The ordinance regulating the speed of steam cars, locomotives and street cars in the borough to 12 miles per hour was passed finally, and will be given to the Chief Burgess for his consideration. Mr. Byrne, during the Burgess illness, is Acting Burgess under the statutes, and he vacated the chair for another member when the Arthur avenue paving came up, as all members are anxious to put this street through, since the property owners have all agreed to the grade and are ready to pay their assessments at an early date. The citizens of that thoroughfare have signified their feeling that if the street is torn up and bad weather prevents its paving this fall

they think that street will not be any worse to travel over than usual Market street which is scheduled as next is looked upon by a great many as being a street that it would be dangerous to tear up and leave at the mercy of chance and bad weather which would make it probably totally impassable. A number of the property owners will agree on no grade and anticipate that they will be able to get the grade given to secure drainage or so they are said to have worried others.

The Fire and Water Committee was authorized to have the steam fire alarm put back on the American foot & the Plate Company's boiler house as it is uncertain when the furnace will have steam to blow the whistle. The Pennsylvania Railroad Company will be permitted to open another tunnel into their freight yard along Broadway and new corners will be placed where there have been entirely worn out at a couple of places. Several smaller matters were brought under discussion and Council adjourned. Those present were J. F. Berry, W. H. Brown, A. E. Collins, L. R. Ditcher, J. W. Fitzsimmons, J. C. Hume, H. G. Malt, W. Porter, W. H. Sieghart, O. S. Weaver, P. J. O'Connor and President A. P. Lyne.

Williams, Democrat, of New Kensington.

## ROOSEVELT WRITES TO KNOX.

Wants to Know If Bryan  
Stands With Gom-  
pers.

### THE PEARRE BILL IS HIS TEXT.

Declares He Is Friend of Labor But  
Does Not Approve of Labor's De-  
mands as Represented by Bill in  
Question.

Washington, Oct. 22.—Campaign Hi-  
story is enriched today by a letter  
from President Roosevelt addressed to  
United States Senator Philander C.  
Knox of Pennsylvania, in which Mr.  
Roosevelt pays his respects to Sam-  
uel Gompers, president of the Federa-  
tion of Labor, speaking at Philadel-  
phia on Tuesday. Senator Knox took  
issue with Mr. Gompers on the ques-  
tion of the amendment of the labor  
law in the present campaign, and the  
president's letter of today is in support  
of Mr. Knox's views.

Mr. Roosevelt says in part:  
The daily papers of Oct. 13 contain  
an open letter from Mr. Samuel Gom-  
pers, president of the American Federa-  
tion of Labor, in which he asserts  
that the judiciary of this country is  
destroying democratic government and  
substituting therefor an irresponsible  
and corrupt despotism in the interest  
of corporate power, and he further  
makes clear that the means by which  
he believes this alleged despotism has  
been set up in the place of democracy  
is by the process of injunction in the  
courts of equity.

Mr. Gompers in his letter states that  
his appeal to the Supreme Court at  
Chicago for remedy against the in-  
junction was denied, and he then  
goes on to state not only that the  
Democratic party promised a remedy,  
but promised him the particular rem-  
edy that he had already asked of  
congress.

His statement now makes perfectly  
clear an important plank in the Bryan-  
ite platform which has heretofore  
seemed puzzling to a vast number of  
earnest-minded, thinking people, who  
are sincerely interested in the steady  
advance and the legitimate aspirations  
of labor and who carefully read both  
platforms to know precisely what  
each holds out for the improve-  
ment of the condition of wage ear-  
ners.

That plank reads as follows: "Ques-  
tions of judicial practice have arisen  
especially in connection with in-  
dustrial disputes. We deem that the  
parties to all judicial proceedings should  
be treated with right impartiality and  
that injunctions should not be issued  
in any cases in which injunctions would  
not issue if no industrial disputes were  
involved."

The remedies which Mr. Gompers  
has already submitted to congress are  
matters of record and the identifica-  
tion of his remedy against injunctions  
in labor disputes is easy and certain.  
This remedy is embodied in house bill  
No. 54 of the first session of the six-  
tieth congress. The gist of the bill, as  
can be seen by referring to the com-  
plete text, is this:

First—After forbidding any federal  
judge to issue a restraining order for  
an injunction in any labor dispute ex-  
cept to prevent irreparable injury to  
property or property right it specifical-  
ly provides that "no right . . .  
to carry on business of any particular  
kind, or at any particular place, or at  
all, shall be construed, held, consid-  
ered or treated as property or as con-  
stituting a property right."

Second—It provides that nothing  
agreed upon or done by two or more  
parties in connection with a labor dis-  
pute shall constitute a conspiracy or  
other criminal offense or be prosecuted  
as such unless the thing agreed  
upon or done would be unlawful if  
done by a single individual.

Only Acceptable Remedy.  
The bill here described is not only  
the remedy that Mr. Gompers has al-  
ready submitted to congress, but it is  
the one and only remedy which he  
and those associated with him in his  
present movement have announced  
that they will accept in the matter of  
his grievance against the courts on the  
injunction issue.

Mr. Gompers himself, in discussing  
this bill before a committee on Feb.  
26, 1908, went on record as follows:  
"Events have demonstrated clearly  
to my mind that there is only one bill  
before the committee that can at all  
be effective to deal with this abuse,  
with this invasion of human rights,  
and that is the Pearre bill."

This bill, then, and none other, rep-  
resents exactly the relief that Mr.  
Gompers demands in the way of anti-  
injunction legislation; and if the state-  
ment in his letter is correct this bill  
represents what Mr. Bryan and his  
party are pledged to in the matter of  
anti-injunction legislation.

The injunction plank in the Demo-  
cratic platform may sound vague and  
hazy, but there is nothing vague or  
hazy about this bill. It is more than a  
bill; it is a program of the most fixed  
and definite kind, and if Mr. Gompers  
is correct this bill becomes, as it were,  
an authorized appendix to Mr. Bryan's  
platform or a footnote explaining in  
detail the brief and vaguer in-junc-  
tion plank in that platform.

Does Mr. Bryan accept it as such?  
Where Does Bryan Stand?

There should be such discussion  
as a matter of common fairness, not  
only to labor, but to all citizens alike.  
On a question of such grave conse-  
quence the people are entitled to know  
where Mr. Bryan stands.

Mr. Gompers' public statements as to  
what his party has promised make  
it imperative that Mr. Bryan declare  
himself.

This bill, to the principle of which  
he says Mr. Bryan is pledged, declares  
that the right to carry on a lawful  
business in a lawful way shall not be  
regarded as a property right or entit-  
led to the protection of a court of  
equity through the process of an in-  
junction, and that the right to such  
protection which admittedly now ex-  
ists under the law shall be taken  
away.

So far as the second section of this  
bill is concerned it is perfectly clear  
that it would legalize the blacklist and  
the sympathetic boycott carried to any  
extent. It would legalize acts which  
have time and again been declared op-  
pressive, unjust and immoral.

Taft Opposed to Pearre Bill.  
The eleven who voted for or against  
Mr. Taft on this proposition does so  
with his eyes open and with a clear  
understanding from Mr. Taft himself  
of his position. He has frankly dis-  
cussed this subject time and again  
with workmen themselves, both in  
this campaign and prior to his nomi-  
nation. He has been willing to ex-  
press his position clearly and to as-  
sure workmen that to protect them  
in their rights he is willing to go to  
the limits of what he considers jus-  
tice, but that he will not go farther.

His definition of justice to labor does  
not, as we understand it, include either  
of the principles contained in Mr. Gom-  
pers' program, as set forth officially  
in his bill.

I feel that I have the right to speak  
frankly in this matter because through-  
out my term as president it has been  
my constant object to do everything  
in my power, both by administrative  
action and by endeavoring to secure  
legislative action, to advance the cause  
of labor, protect it from unjust as-  
sault and secure to it its legiti-  
mate rights. I am not at all accom-  
plishing something; I hope to accomplish some-  
thing more before I leave office, and I  
have taken special and peculiar inter-  
est in Mr. Taft's candidacy because I  
believe that of all the men in this  
country he is the man best qualified  
for continuing the work of securing  
to the wage workers of the country  
their full rights. I will do everything  
in my power for the wage workers of  
the country, except to do what is  
wrong, and I will do nothing for no man,  
and with all the force in my power I  
solemnly warn the laboring men of  
this country that any public man who  
advocates doing wrong in their inter-  
est cannot be trusted by them, and that  
whether his promise to do wrong is  
given knowingly that it is wrong or be-  
cause of a lack of knowledge and con-  
sideration which make him willing to  
promise anything without counting the  
cost it thereby support at the moment  
is to be purchased. Just as I have  
fought hard, and shall continue to  
fight hard, bringing about in the near-  
est way the recognition of the right of  
the employee to be amply compensated  
for injury received in the course of his  
duty, so I have fought hard and shall  
continue to fight hard to do away with  
all abuses in the use of the power of  
injunction. I will do everything I can  
to see that the power of injunction is  
not used to oppress laboring men. I  
will endeavor to secure them full and  
equal justice. Therefore, in the inter-  
est of all good citizens, be they labor-  
ing men, business men, professional  
men, farmers or members of any other  
occupation, so long as they have in  
their souls the principles of sound  
American citizenship, I denounce a  
proposition to secure a law  
which, according to the explicit state-  
ment of Mr. Gompers, is to prevent  
the courts from effectively interfering  
with riotous violence when the object  
is to destroy a business and which  
will legalize the blacklist and the sec-  
ondary boycott, both of them the ap-  
paratus of unmanly persecution.

Cannot Be Trusted.  
Advocates doing wrong in their inter-  
est cannot be trusted by them, and that  
whether his promise to do wrong is  
given knowingly that it is wrong or be-  
cause of a lack of knowledge and con-  
sideration which make him willing to  
promise anything without counting the  
cost it thereby support at the moment  
is to be purchased. Just as I have  
fought hard, and shall continue to  
fight hard, bringing about in the near-  
est way the recognition of the right of  
the employee to be amply compensated

with riotous violence when the object  
is to destroy a business and which  
will legalize the blacklist and the sec-  
ondary boycott, both of them the ap-  
paratus of unmanly persecution.

Plank Is Interpreted.  
That plank reads as follows: "Ques-  
tions of judicial practice have arisen  
especially in connection with in-  
dustrial disputes. We deem that the  
parties to all judicial proceedings should  
be treated with right impartiality and  
that injunctions should not be issued  
in any cases in which injunctions would  
not issue if no industrial disputes were  
involved."

The remedies which Mr. Gompers  
has already submitted to congress are  
matters of record and the identifica-  
tion of his remedy against injunctions  
in labor disputes is easy and certain.  
This remedy is embodied in house bill  
No. 54 of the first session of the six-  
tieth congress. The gist of the bill, as  
can be seen by referring to the com-  
plete text, is this:

First—After forbidding any federal  
judge to issue a restraining order for  
an injunction in any labor dispute ex-  
cept to prevent irreparable injury to  
property or property right it specifical-  
ly provides that "no right . . .  
to carry on business of any particular  
kind, or at any particular place, or at  
all, shall be construed, held, consid-  
ered or treated as property or as con-  
stituting a property right."

Second—It provides that nothing  
agreed upon or done by two or more  
parties in connection with a labor dis-  
pute shall constitute a conspiracy or  
other criminal offense or be prosecuted  
as such unless the thing agreed  
upon or done would be unlawful if  
done by a single individual.

Only Acceptable Remedy.  
The bill here described is not only  
the remedy that Mr. Gompers has al-  
ready submitted to congress, but it is  
the one and only remedy which he  
and those associated with him in his  
present movement have announced  
that they will accept in the matter of  
his grievance against the courts on the  
injunction issue.

Mr. Gompers himself, in discussing  
this bill before a committee on Feb.  
26, 1908, went on record as follows:  
"Events have demonstrated clearly  
to my mind that there is only one bill  
before the committee that can at all  
be effective to deal with this abuse,  
with this invasion of human rights,  
and that is the Pearre bill."

This bill, then, and none other, rep-  
resents exactly the relief that Mr.  
Gompers demands in the way of anti-  
injunction legislation; and if the state-  
ment in his letter is correct this bill  
represents what Mr. Bryan and his  
party are pledged to in the matter of  
anti-injunction legislation.

The injunction plank in the Demo-  
cratic platform may sound vague and  
hazy, but there is nothing vague or

and definite kind, and if Mr. Gompers

Games Tonight.

Westmoreland Clerks vs. C. & O.  
Amateurs vs. Wright-Metzler on Con-  
necticut.

The second series in the  
Mercantile Bowling League began last  
night with three games on the Temple  
alleys between Dunbar and the All-  
Stars. The Dunbar bowlers again  
demonstrated their superiority over  
the field by winning two out of the  
three. The scores were comparatively  
low and on total pins the winners led  
by but 12 points.

The first game was the best of the  
series because the result was in doubt  
until the last frame had been rolled.  
Dunbar won this set by nine pins. The  
other two were won by good margin,  
the second by Dunbar and third by  
Casper.

Porter, who was high total in the  
league last week, did not roll up to his  
usual standard and honors for his  
team went to Horner. Opponent of the  
Casper team was high total, rolling  
181 pins. He also rolled high game  
with 172. The score

Team	1st	2nd	3rd	Total
Dunbar	114	124	114	352
All-Stars	114	114	114	342

Amateurs	114	114	114	342
C. & O. Clerks	114	114	114	342

Tonight the local alleys will be busy  
with the Mercantile Bowling League.  
The Wright-Metzler team will make its  
initial appearance. Last week the  
Westmoreland Clerks rolled three  
games without opposition and claimed  
honors for their team. The Wright-Metz-  
ler team will play the Dunbar team.  
The game was postponed at the in-  
stance of the Clerks themselves, and  
must be played at a later date.

Until the matter is finally decided by  
the league the proposed games will  
not be played. Tonight the Wright-  
Metzler team will play the Dunbar team.  
The game was postponed at the in-  
stance of the Clerks themselves, and  
must be played at a later date.

### MAKES ASTONISHING CURES.

Mi-na Tablets Cure Dyspepsia by  
Promptly Removing the Cause,  
or Money Back.

Mi-na is a scientific and effective  
remedy for the permanent cure of in-  
digestion.

Food is digested in the stomach by  
means of a churning movement of the  
walls of the stomach which thorough-  
ly mixes the food with the gastric  
or stomach juices.

If the muscular walls are flabby and  
lack tone or energy, the stomach can-  
not churn the food properly, and the  
digestive juices are not properly mix-  
ed with the food.

This causes indigestion. The com-  
mon symptoms are: weight and full-  
ness after meals, coated tongue, bad  
taste in mouth, discharges of wind  
from the mouth, and belching of sour  
material.

Dyspepsia cannot be cured by taking  
a digester, such as papain, because  
papain simply digests your food arti-  
ficially, and not at all the food either,  
or it has no effect at all on stomachy  
food, such as potatoes, rice, oatmeal,  
bread, etc.

There is just one way to cure dys-  
pepsia and stomach disorders, and  
it is to eat and that is to eat up  
put energy into the stomach walls, so  
that they will be able to properly mix  
or churn the food.

Mi-na tablets cure stomach  
troubles by putting strength and en-  
ergy into the stomach. They quickly  
arouse the stomach from its inaction,  
and in a short time it is able to do its  
work properly.

And bear in mind that when the  
stomach is in good condition, consti-  
pation disappears, also nervousness,  
drowsiness, night sweats, heartburn,  
etc.

A. A. Clark, the druggist, sells  
Mi-na tablets under a rigid guaran-  
tee to do all that is claimed for them,  
or money back.

### A Thorough Understanding of Fashion's Tendencies.

How Much It Means  
to Most People

ENTIRELY upon the fashionable lines of a garment depends its desirability.  
As we told you a few days ago. Fashion is but an agency for imparting to  
merchandise a value over and above its intrinsic worth. Many merchants  
(not progressive) have much apparel that is antiquated in style. Fabrics as good,  
no doubt, as they ever were but the style is old, and we've known merchants of this  
type to offer these obsolete garments (without description) at ridiculous price-cuts  
right at the beginning of a season but no sales resulted. Intrinsic worth was there  
but no style.

In the presentation of style, absolutely authoritative, this store has been long ac-  
knowledgeed the peer. Our prices have always been reasonably low or our growth  
would not have been so rapid. No one can offer distinctive, stylish apparel at low-  
er prices than can we, and no discriminative man or woman will purchase a garment  
of "ye olden times" no matter how little the selling price. A visit to this establish-  
ment can't but prove of decided advantage to you in many ways.

## Our Store for Men.

Half of our first floor is divided into a store that is essentially a man's store. The class of mer-  
chandise that comprises it is of a character decidedly removed from the ordinary. It ex-  
emplifies what discriminative buying will do. Here you'll find men's apparel every model of which  
presents some distinctive feature. Neckwear of a quality exceeding any competitive offerings.  
Shirts, the designs and fabrics of which meet the most critical requirements of careful dressers. In  
fact every article presented has something that recommends it to men of taste. We don't tell you  
these things in a spirit of egotism but more from a feeling of enthusiasm. We want you to know  
the difference of this merchandise as we do. We want you to know merchandise as judged by our  
high standards. Because of our output, which is more than double that of any competitive es-  
tablishment, we gain a buying privilege that is easily discernible as reflected in our offerings. Every  
man owes it to himself to obtain in his every purchase the best that his money will buy. Our men's  
store is a most potent example of what careful and judicious buying can accomplish.

## One Hundred and Fifty Different Workmen Are Required to Make One Pair of Crawford Shoes.

Every One A Specialist.

There are many unique features in a Crawford shoe. "The treadlast last" the "stay-on box toes," the "Bend" sole, reinforced shanks and many  
other points of merit. The old method of making shoes compelled one man to do all the work. In the Crawford factories the shoes are made  
by a corps of experts, each man especially fitted for his portion of the work. Ask the man that's worn a Crawford what he thinks of them. He'll  
tell you. He'll say to you that just year in and year out he wears other "makes" no wearing today. Crawford makers originate all of  
their styles that's why they're a serious rival. They're all good styles, that's why they're copied.
